

HDM *SKYDRIVE*

ANYTIME. ANYWHERE. ANY DEVICE.

Integrating both robust hardware and software systems to bring forth the next evolution of fluid inventory management

INTRODUCING THE HDM SKYDRIVE

TECALEMIT offers some of the most rugged and robust inventory management systems found in the industry. From the popular Wonderbox and Superbox units offering single, 2-hose, and 5-hose options, to TECALEMIT's line of HDM eco dispensers with built-in inventory management systems, TECALEMIT's portfolio captures it all. We're combining our powerful hardware units with today's advanced technology to bring forth the **HDM SKYDRIVE**.

With the **HDM SKYDRIVE**, easily manage, monitor, track, and account for inventory and assets across multiple locations via "the cloud." Gain data accessibility no matter where you may be, whether in the office or out. The **HDM SKYDRIVE** allows you to access data, reports, and real-time transactions anytime, anywhere, on any device.

HDM SKYDRIVE

ANYTIME. ANYWHERE. ANY DEVICE.

Cloud Computing

WHAT IS IT AND HOW DOES IT WORK?

Cloud computing is more simple than you may think. Opposed to saving, storing, and accessing information and data on a local hard drive, cloud computing means doing all of these things over the Internet.

Cloud computing is the next “normal” when it comes to data storage and accessibility. It’s ease of use and convenience make it attractive to consumers. When data is stored on a local hard drive of a computer, it’s not accessible unless you are physically at the computer. This can cause headaches and frustration when an issue arises or you need access to something stored on that computer, yet you are not near it. With cloud computing, you can effortlessly gain access remotely anytime, anywhere, and on any device.

Cloud computing can help your business save time and money. The flexibility it offers users not only provides convenience, but peace of mind. With cloud computing, there’s no worrying if the hard drive will crash or if you’ll lose your stored files. With cloud computing and the HDM SKYDRIVE, we’re giving you the confidence and security you’ve been looking for.

Hardware

WHAT DO I NEED?

- One of the following: Wonderbox single-hose, Superbox 2-hose, Superbox 5-hose, HDM eco DEF dispenser, HDM eco diesel dispenser, or the M1 dual sided dispenser
- Pulse meter
- Cellular modem (included with purchase of HDM SKYDRIVE)
- Head units can be used with DEF, fuels, chemicals, oils, water, and antifreeze/coolant

HDM SKYDRIVE CAN BE RETROFITTED WITH EXISTING TECALEMIT EQUIPMENT!

Wonderbox

Superbox

HDM eco Dispensers

M1 Pro System

- 4,000 users & vehicles | 10,000 transactions
- Secured groups: driver & vehicle Id, key fob
- Handles any fluid with proper pulse meter
- Power: 120/60 V/Hz
- Max. switched current: 6.2A
- Power on time: 100%
- Wonderbox: Single-hose unit
- Superbox: 2-hose or 5-hose option

- 4,000 users & vehicles
- 10,000 transactions
- Pump inside
- Oval gear meter with pulse out
- Secured groups: driver & vehicle ID, key fob
- Voltage: 110/60 V/Hz
- 13 ft. dispense hose
- Automatic nozzle

- 4,000 users & vehicles
- 10,000 transactions
- Dual sided dispenser for DEF and/or diesel
- Includes dual Hornet pumps
- Flow rate: 22 gpm (diesel), 10 gpm (DEF)
- Voltage: 110/60 V/Hz
- x2 13 ft. discharge hoses and automatic nozzles

Cloud-Based Software

WHAT ARE THE FEATURES & BENEFITS?

- **Accessibility**
With an Internet connection, you can access the HDM SKYDRIVE information anytime, any where, on any device.
- **Secure & Reliable**
Data encryption keeps your company fuel records secured and private.
- **Enhances Collaboration**
Teams across multiple locations can access and share information effortlessly, giving them the opportunity to do more, together.
- **Higher Productivity**
Access the HDM SKYDRIVE information anytime and anywhere, you don't have to be onsite to work.
- **Disaster Recovery**
All records are securely backed-up to the HDM SKYDRIVE servers, making recovering data easy.

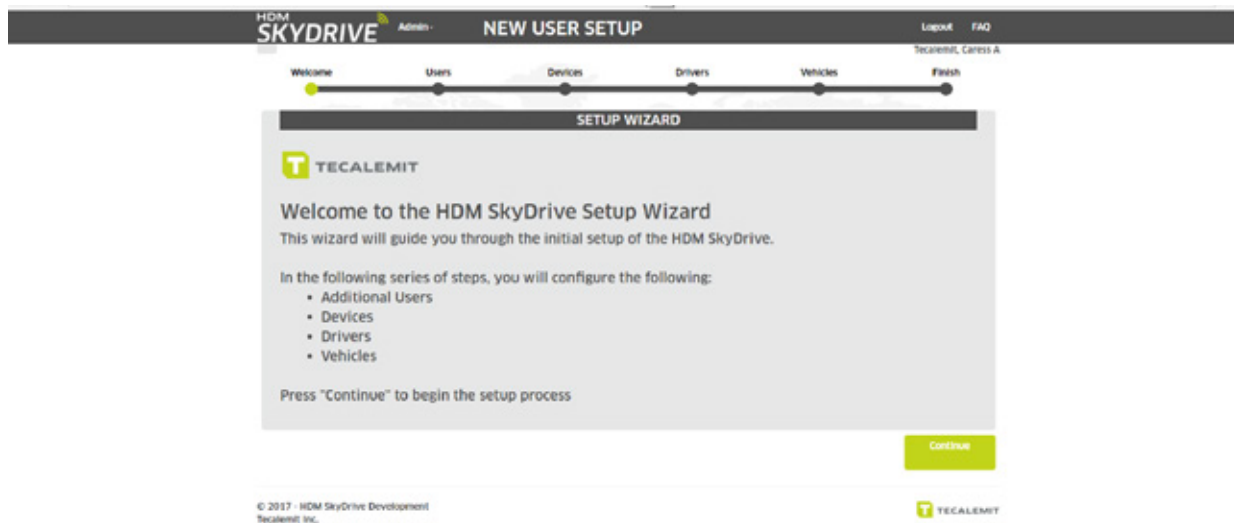

FEATURES

- Access the HDM SKYDRIVE anytime, anywhere, from any device
- Step-by-step setup wizards
- Real-time monitoring
- Comprehensive reports
- Custom event retrieval times
- **Can be retrofitted to existing equipment - no need to purchase new equipment!**

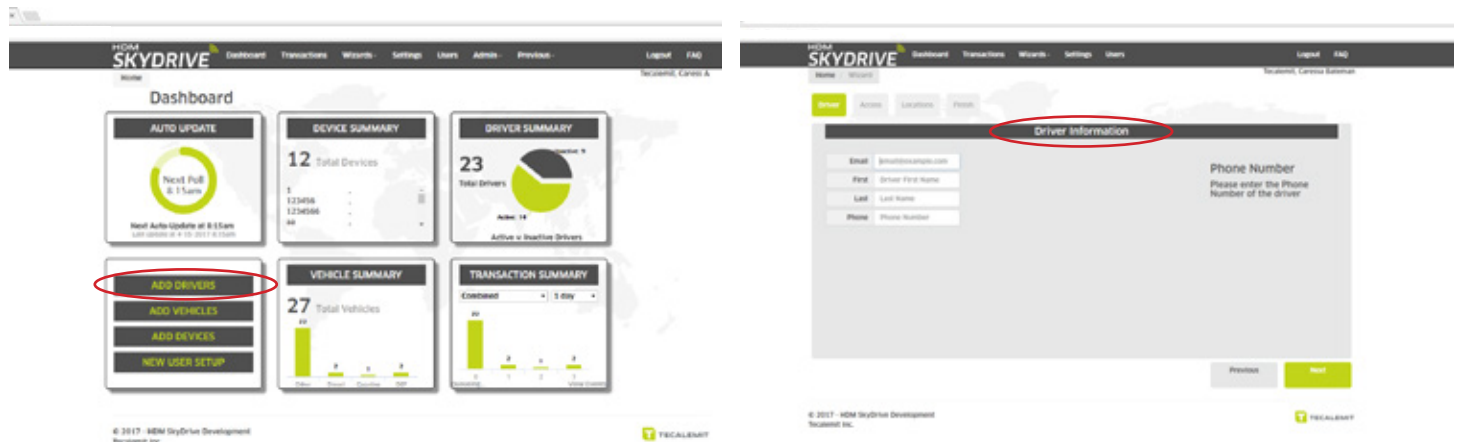

Set-Up Wizards

USER-FRIENDLY AND SIMPLE TO USE

As an added benefit, we've simplified the process of setting up **HDM SKYDRIVE** for you. As a new user, you will follow a simple "New User Setup Wizard," which will walk you through setting up drivers, vehicles, devices, and locations step-by-step.

Let's say you're a returning user and need to add a new driver to **HDM SKYDRIVE**. We've further streamlined the setup process by creating individual setup wizards for adding a driver, vehicle, device, or location. In this case, you would simply click on "Add Drivers" in the main Dashboard, and you would be directed to the "Driver Setup Wizard." This is the same for adding vehicles and devices, as well.

Comprehensive Reports

CUSTOM REPORTING

Choose Your Fields:

We're putting the control in your hands. Create custom reports that show only what you want to see.

- Choose a custom transaction date range
- Filter by individual devices, vehicles, drivers, or products
- Retrieve events from device directly from Reports page
- Export to a spreadsheet at the click of a button
